## What is this product?

**Type:** Shares of a Sub-Fund of AMUNDI UCITS FUND PARTNERS ICAV, an ICAV.

**Term:** The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectives:** The Sub-Fund's investment objective is to achieve capital growth. The Sub-Fund invests mainly in equities and equity related securities (such as common stock, depositary receipts and preferred shares) predominantly issued by issuers listed, domiciled, or conducting significant business in Emerging Markets that offer undervalued long-term prospects and present opportunities for improved sustainability through active engagement. These investments have the potential to create value through active engagement with the issuer on a wide range of environmental, social, and governance ESG ("ESG") and other issues bespoke to the issuer's business.

A maximum of 20% of the Sub-Fund's net asset value may be invested in equities and equity related securities of issuers listed, domiciled, or conducting significant business in a frontier markets country (countries defined as such by the MSCI Frontier Markets Index), up to 10% of Sub-Fund's net asset value may be invested in securities listed or traded on the Moscow Exchange and up to 30% of the Sub-Fund's net asset value may be invested in A-share of People's Republic of China companies listed on the Shanghai-Hong Kong Stock Exchange via Stock Connect. The Sub-Fund may hold cash and instruments that may be readily converted to cash (such as cash deposits, treasury bills, investment grade government bonds). In normal market conditions, such investment shall not exceed 20% of the Sub-Fund's net asset value.

The Sub-Fund may use derivatives such as futures, forwards, options and total return swaps for efficient portfolio management purposes only. The Sub-Fund is actively managed and uses the MSCI Emerging Markets Net Total Return Index (USD) (the "Index") for performance comparison purposes only. The Sub-Fund's portfolio is not limited to, or constrained by, the constituents of the Index. The Sub-Fund has not designated the Index as a reference benchmark for the purpose of the Sustainable Finance Disclosures Regulation. Firstly, companies that derive more than a de minimis proportion of their revenues from operations relating to weapons, fossil fuels, adult entertainment, tobacco, alcohol production, gambling, and any other products and services determined by the Investment Manager to negatively impact sustainable improvements are excluded from the investment universe.

Following these exclusions, Gulf International Bank (UK) Limited, the Sub-Fund's investment manager (the "Investment Manager"), aims to achieve the Sub-Fund's investment objective through a bottom-up approach to high conviction, active emerging markets (countries defined as such by the

Index) and frontier markets investing by identifying companies with underappreciated sources of growing cash flow, and engaging with them on ESG issues and a range of other issues likely to enhance shareholder value.

The Investment Manager undertakes a quantitative screening process that tests the issuer's earnings quality, cash flow and capital structure strength when selecting the Sub-Fund's holdings from the investment universe. A qualitative analysis is then performed to determine whether the issuer is significantly undervalued.

Issuers held in the Sub-Fund's portfolio will be subject to the Investment Manager's active engagement process, involving constructive and purposeful dialogue with issuers focusing on improvements in their approach to ESG-related issues and optimising other business practices with a view to improving sustainability and enhancing value.

This is achieved through direct interaction with issuers through meetings and on-site visits, presentations, publication of whitepapers and letters to management alongside proxy voting. The implementation or disregard by the issuer of the suggestions made by the Investment Manager is ultimately up to the issuers management and there can be no guarantee that the Investment Manager's suggestions will be implemented by the issuer.

The Investment Manager will analyse each issuer to identify the most relevant and material ESG risks factors to its business and engages with management to share suggestions in respect of their establishment of a long-term sustainability plan. The Investment Manager pursues this engagement approach because it believes that mitigating ESG risks and improving an issuer's performance on ESG issues will ultimately give rise to higher company valuations and maximise shareholder returns.

**Intended Retail Investor:** This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment and to receive income while preserving some or all of the capital invested over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

**Redemption and Dealing:** Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the AMUNDI UCITS FUND PARTNERS ICAV prospectus.

**More Information:** You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Ireland Limited at AMUNDI IRELAND LIMITED, One George's Quay Plaza, George's Quay, Dublin 2, Ireland. The Net Asset Value of the Sub-Fund is available on [www.gibam.com](http://www.gibam.com).

**Depository:** Société Générale S.A., Dublin Branch.

## What are the risks and what could I get in return?

### RISK

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 5 years.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the AMUNDI UCITS FUND PARTNERS ICAV prospectus.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

## PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Sub-Fund over the last 5 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

**What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

This type of scenario occurred for an investment using a suitable proxy.

## What happens if Amundi Ireland Limited is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of AMUNDI UCITS FUND PARTNERS ICAV. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from

those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.
